

PRIME GRAIN FED NATURAL  
SOUTHERN AUSTRALIAN CHILLED BEEF

**CLARE VALLEY**

**GOLD**

## PRIME GRAIN FED NATURAL SOUTHERN AUSTRALIAN CHILLED BEEF.

The Clare Valley Brand was introduced by T&R Pastoral to cater for the discerning palates of the Japanese, Korean and domestic markets. Minimum feeding periods, precision boning and levels of marbling deliver a unique combination of flavour and tenderness to this premium quality beef.

T&R Pastoral's grazing properties, feedlots and processing plant are strategically located in South Australia, providing easy access to Australia's premier quality livestock and an assurance that the process begins with the highest quality produce.

Our plant (EST. 533) at Murray Bridge boasts a team of experienced and highly qualified technical staff who ensure that this process continues. Customer specification, food safety and the stringent regulations of the USDA and European Union (EU), all work together to reinforce this quality.

With absolute control from procurement and feedlot, through to processing, packaging and shipment, T&R Pastoral leaves nothing to chance. So our customers can be sure of receiving the best quality meat, delivered under the highest possible safety standards.

For more information about Clare Valley branded products, contact T&R Pastoral's Export Division, or visit our web-site.
